BOOK OF DRAWINGS

BY

FRED RICHARDSON

Being a Selection of Those Done for the Chicago Daily News

This book contains in reduced size a number of pictures reproduced from the original drawings. It includes many drawings in this exhibition, and others that have appeared in the Saturday issue of the Chicago Daily News.

It is the first time an effort has been made to collect and present in book form the series of cartoons, posters, and other drawings which has made the Saturday Daily News an example of the artistic possibilities of newspaper illustration.

In detail of engraving, printing, and book-maker's art, the book has attempted an excellence that was warranted by the demand for these drawings in convenient form.

For sale here and elsewhere at $2.00.
