Dear Mr. Burnham,

Every Merchants Club letter I receive indicates heartiest enthusiasm over the opportunity to have your plans for Chicago developed under the auspices of the Club.

Have you considered further the question of personnel of our Committee? I hope you will do so and I will see you promptly on my return about September 1st. If you have mislaid the Club book my office will send you a copy.

There is too the question of a Dinner to be devoted to this topic and if so...
What speakers to invite.

I am anxious that the whole plan
be kept pretty close until an announcement
of just the right sort - through a
dinner or otherwise - can be made.

If you have any suggestions.
My address is for the next ten days
West Chop Mass.

Faithfully yours,
Charles D. Nason.
