# Thinking Creatively: Free Response

This activity helps you describe the reactions and feelings you get from a work of art.

Select a work of art in the museum's galleries or from the [collection](#) page of the museum's website. Look closely, standing nearer and farther away from the work of art, examining all the details you can. Take a moment to sketch and/or write about what you see.

**Artist name, artwork title:**

---

What do you notice? What feelings do you have from looking at the artwork? What appeals to you? What are you curious about? What would you like to tell someone else about the artwork?
